

Christian Jorge Meude

Full-Stack Developer | React Native · Expo · Supabase · Laravel

0927 526 4248 | christianmeude17@gmail.com | linkedin.com/in/christianmeude17 | github.com/christianmeude | christianmeude.vercel.app | Philippines — open to remote

PROFESSIONAL SUMMARY

Full-stack developer and final-year BS IT (Mobile & Web) student, strongest in React Native and Expo, with working knowledge of Flutter, Laravel, and Supabase/PostgreSQL backends. Builds complete systems end to end, including a client booking platform with a React landing site, a Flutter customer app, and a Laravel admin dashboard. Client-facing support experience since 2022 means I communicate clearly with users and stakeholders.

SKILLS

Proficient: React Native, Expo, EAS Build, Flutter, Dart, JavaScript, TypeScript, React, Tailwind CSS, HTML/CSS, Laravel, PHP, Inertia, Supabase, PostgreSQL, Git, Vercel, Render

Familiar: Next.js, REST APIs, expo-sqlite, Node.js/Express, Java, Python, MySQL, Firebase

PROJECTS

NUcleus Mobile — Capstone, solo-built · In testing, defense pending

Stack: Expo, React Native, TypeScript, Supabase (Auth, Database, Storage, Edge Functions). Mobile app for NU–Dasmariñas students and faculty to browse and submit research and run faculty reviews: review queue (approve, reject, or request revisions), status tracking, co-author invitations, and publication requests with DOI assignment. Documented with a domain glossary, design system, and product spec. github.com/christianmeude/capstone-nucleus-rn

Inea Scents System — Client booking platform · Delivered, pre-launch

Stack: React + Vite, Flutter, Laravel + Inertia, PostgreSQL. Event booking platform for a scent bar across three deployed repos: a landing site with inquiry form, a customer app (packages, time slots, checkout; PayMongo in test mode), and an admin/API for bookings, packages, and inquiries. **Live:** ineascents.vercel.app · **Code:** backend · app · landing

BudgeTrax — Personal budget tracker · WIP

Stack: Expo, React Native, expo-router. Pay-cutoff budgeting with allotments, bill payoff, a to-spare balance, and a due-date calendar. github.com/christianmeude/BudgeTrax

Lalatracker — Offline delivery-earnings ledger · WIP

Stack: Expo, expo-router, expo-sqlite. Offline-first rebuild of a native delivery tracker: peso totals, date filters, recycle bin with restore, and wallet ledger; verified on emulator. github.com/christianmeude/lalatracker

WORK EXPERIENCE

iQor (Philippines), Inc. — Dasmariñas City, Philippines Jan 2026 – Sep 2026
Customer Service Representative

- Handled revolving collections on an auto-loan finance account; earned performance incentives for consistently strong results across all account metrics.

ibex Global Solutions Philippines, Inc. — Muntinlupa City, Metro Manila Oct 2024 – Jan 2025
Customer Service Representative

- Diagnosed in-app technical issues for a logistics platform and documented cases in the CRM for engineering follow-up.

Foundever Asia, Inc. — Makati City, Metro Manila Dec 2022 – Nov 2024
Customer Service Representative (Omni-Agent)

- Resolved billing and account issues across chat, email, and phone as part of a select Omni-Agent team.

Concentrix CVG Philippines, Inc. — Muntinlupa City, Metro Manila Jan 2022 – May 2022
Technical Support Advisor (Tier 2 Capacity)

- Provided Tier 2 troubleshooting for an international telco account, covering internet services and mobile devices.

EDUCATION

National University – Dasmariñas 2023 – Expected 2026
BS in Information Technology, Specialization in Mobile and Web Applications

- Dean's Lister, 10 consecutive terms
- Capstone: NUcleus Mobile (defense pending)
